

Dear professor Capps,

10/1/84

I just wanted to thank you for teaching such a wonderful class as Religion and Vietnam. Your humor and enthusiasm has made learning so much more interesting. I have learned more in this class, then in any others that I have taken since I've been at UCSB. It has definitely opened my eyes to various issues which I may not have sought out on my own. Thank you also for helping me better understand the veterans from Vietnam and where they are coming from.

You are truly a wonderful teacher and person and I look forward to taking other classes from you in the near future.

Sincerely,  
Deborah Regosin
