October 5, 1987

Dear Dr. Capps,

It's been almost six years since I took your class on Vietnam. Watching 60 MINUTES last night and seeing the "Family" continuing the struggle to welcome our Veterans home was very moving. When I read about the "wars" waging in Central America I think about Buzz and Denver and all the other Vets who enlightened me and I pray to God that it will not happen again. Last night I was greatly moved. I felt the unified love of hundreds of people. If only it could always be... It is truly a goal worth reaching. Thank you Dr. Capps for giving me the opportunity to learn the truth.

Sincerely,

Laura Velkei
