Walter,

Spoke with Pat Mendoza (in Denver)
who had called you.

You know, it's interesting but also
sad to talk with these veterans and
hear part of their story/problems.

Anyhow, he's just finished two years
of therapy (with other vets) and as
part of therapy has written some
songs about Vietnam (which he claims
he has sung to various student groups
in the schools). He's going to
send you some tapes of his songs
(I tried to tactfully let him know
you probably wouldn't be able to
use the tapes in your class).
