Dear Walter,

10 NOV 88

Thank you for the beautiful flowers! What an unexpected surprise!

Well, the election is over - the Governor is a Senator - we all get to have a little more sleep and maybe some decent food! It was a long nine months, but definitely worth it.

The Senator is spending today out turkey hunting and spending tomorrow with some of his friends from his SEAL team. He deserves a break! Then he's off to DC for committee assignments.

Thank you for being a friend Walter! Take Care,
Laura
