

## Gov. Kerrey expected for stint at UCSB

When Bob Kerrey steps down next month as the governor of Nebraska, he'll come to Santa Barbara for his next job — as a visiting professor at UCSB.

A Vietnam veteran and Medal of Honor winner, Kerrey will help Professor Walter Capps teach an undergraduate religious studies class on "The Impact of the Vietnam War" and a graduate seminar on "State Government and Politics."

He's expected to arrive in the second week of January and teach during the winter quarter only before returning to Nebraska.

### Full of surprises

Kerrey, 43, was an upset winner when he ran as a political unknown for governor in 1982. And he surprised people again in late 1985 when he decided not to seek a second term.

He'll leave the post as one of the most popular governors in Nebraska history. Recent polls show him with an approval rating of more than 75 percent, even though he is a Democrat in a largely Republican state.

Closely watched by political experts who consider him charismatic, Kerrey has been mentioned as a future candidate for president. (He also had a well-publicized romance with movie star Debra Winger in 1985.)

### Ex-Navy commando

Kerrey lectured for Capps' class in 1985 and 1986 and was well received, the professor said. He spoke about his experiences as a member of an elite Navy commando team, including a 1969 combat explosion that severed his lower right leg.

He was awarded the Medal of Honor, but considered refusing it as part of a protest against the war.

The governor also spoke in May 1985 to a joint meeting of the Channel City Club and Women's Forum at the Miramar Center in Montecito. He talked then of the need to raise taxes to help balance the federal budget.

## Daytime English class scheduled in Lompoc

LOMPOC — A daytime class in English as a second language will be offered by Lompoc Adult School starting Monday.

Sessions will be at El Camino School, Room 1, starting at 8:30 a.m. on Monday, Wednesday and Friday, said Domenic Signorelli, adult school principal.

### Record total for rabies reaches 42

The record number of rabies cases in 1986 has risen to 42 in Santa Barbara County as the year draws to a close, according to health officials.

The latest case of rabies in a wild animal involved a skunk that was found Dec. 10 at Coast Rock Products in Garey, southeast of Santa Maria. A worker spotted the skunk and reported it to animal control officers, who killed the animal so it could be tested for rabies, said Susan Petty, county health educator.

The county's previous record of 30 rabies cases was set in 1974. The record was broken in early July. This year's cases have involved 40 skunks and two bats.

Health officials urge pet owners to get their dogs and cats vaccinated. The health department will sponsor rabies clinics countywide in January and February.

### Biannual cleanup week planned in Carpinteria

Carpinteria residents will be able to get rid of their accumulated trash during biannual cleanup week, Jan. 5 through 10, sponsored by Channel Disposal and the city of Carpinteria.

Channel Disposal customers are instructed to place additional bags and bundles at curbside on their normal trash pick-up day. The bundles should not weigh more than 80 pounds or be longer than 4 feet, and should be securely tied.

Larger items, such as water heaters and washing machines, will be picked up, too — but arrangements must be made in advance by phoning 963-3767. There will be a \$10 fee for each item, a \$15 discount from the regular price.

Additional information about the cleanup can be obtained by phoning 963-3767 Monday through Friday, from 9 a.m. to 2 p.m.
